www.maat-g.com)

My Vision: “Evolving Sustainable Organizations from Value Chains to Value Networks as the key source of competitive advantage to promote Sustainable and Social Communities through the alignment of Corporate Finance with GreenTech Infrastructures and Social Development”.

I am the Founder and Chairman of maat Group (www.maat-g.com), the holding company of one of the most innovative and fast growing independent privately owned Structured Corporate Finance / Technology / Services Group (est. 1999) established around Maat International Group with corporate presence in Europe, UAE, Africa and Asia representing the interest of some international investments corporations.

My leadership and business experience accumulated both in Public and Private Sector marked a change in the pioneering the development of Internet in Europe; Corporate Strategy of Professional Services offering into the Structured Corporate Services (Multilateral Agencies, Investment Funds, Private Equities, Development Funds,...); Real Estate, Property Development, Housing, Energy, Transport Infrastructures, Agriculture and Trading industry; Research & Development into the Circular Economy; ICT industry and Finance. in Europe (Spain, Switzerland, Portugal, Italy, UK,..); Africa –South Africa, Tanzania, Angola, Namibia, Mozambique,...) and LATAM (Argentina, Colombia, Mexico, Caribbean Countries,...) and UAE.

I am also supporting strategic relationships within the field of mineral resource exploration and commercial trading platforms on global basis. My present greatest challenge is support the development of FINTECH/Financial Institutions as part of the "Circular Economy" Strategy business model based onto my strong relationship with a worldwide network of key prominent entrepreneurs and professionals and high net worth individuals at international level.

I am venture capitalist in various companies and he is a founding member of key Corporate Social Responsibility Programs and Institutions (www.fundacionkaf.org) on a global basis related to Health, Education, Social Development, and especially Children Empowerment in unfavorable living conditions – orphans, poor, unstructured families,...-

Santiago Jiménez – Business CORPORATE PROFILE
